PROFESSIONAL SUMMARY

Full-stack Power Platform and SharePoint Framework developer with 6+ years of experience building enterprise low-code/pro-code solutions on the Microsoft 365 ecosystem. Specialises in Canvas Apps, Power Automate, Dataverse data modelling, and SPFx web parts in React/TypeScript. Delivered solutions for healthcare, banking, and retail clients ranging from 14-clinic administrative platforms to organisation-wide intranet portals for 4,200 employees.

WORK EXPERIENCE

BearingPoint *Bucharest, Romania - 2021 - Present*

Power Platform & SharePoint Developer

- Built 4-module Canvas App for MedService Group (14 clinics, 600 users) including patient record management, appointments, supply inventory, and administrative requests; applied Row-Level Security and GDPR-compliant column encryption.
- Developed 6 custom SPFx web parts in React/TypeScript for BancaRom intranet (Interactive Org Chart with IndexedDB caching, Employee Spotlight, Animated News Ticker, Viva Connections Dashboard cards).
- Implemented Power Automate flows integrating M365 with SAP SuccessFactors and legacy MIS exports (Azure Logic Apps CSV pipeline); reduced administrative request processing time by 70%.
- Extended VitaRetail Copilot Studio agent with Power Automate connectors to OMS and Dynamics 365 CRM; implemented Dataverse caching layer reducing OMS API latency from 4.2s to 0.8s.
- Designed and maintained Dataverse data models for 5 client solutions, including relationships, business rules, and security roles.
- Conducted code reviews and defined Power Platform coding standards for BearingPoint Romania practice.

Atos IT Solutions Romania *Bucharest, Romania - 2018 - 2021*

.NET & SharePoint Developer

- Developed REST APIs in ASP.NET Core 3.1 for a logistics management system serving 12 European subsidiaries.
- Built SPFx solutions (React, TypeScript) for corporate intranet for a global manufacturing client (3,500 users).
- Implemented Azure Functions (consumption plan) for event-driven document processing and notification workflows.
- Participated in Angular 8 front-end development for an internal HR self-service portal.
- Wrote unit tests using xUnit (.NET) and Jest (TypeScript) to maintain 80%+ code coverage.

EDUCATION

B.Eng. in Computer Science - Politehnica University of Bucharest - 2018

CERTIFICATIONS

- Microsoft Certified: Power Platform Developer Associate (PL-400)
- Microsoft Certified: Power Automate RPA Developer Associate (PL-500)
- Microsoft 365 Certified: Developer Associate (MS-600)
