

Ioana Vlad

Business Analyst

ioana.vlad@bearingpoint.com | +40 774 234 789 | Bucharest, Romania | linkedin.com/in/ioana-vlad-ba

PROFESSIONAL SUMMARY

Business Analyst with 6+ years of experience in requirements engineering, process documentation, and UAT management across ERP, data, AI, and digital transformation projects. Skilled in BPMN process mapping, conversational intent analysis, data governance, and facilitation of cross-functional workshops with business and technical stakeholders. Proven ability to bridge the gap between complex technical systems and business needs in fast-paced consulting environments.

WORK EXPERIENCE

BearingPoint *Bucharest, Romania - 2020 - Present*

Business Analyst

- Conducted full data discovery for EuroAgro International analytics platform: inventoried 87 data entities across 7 source systems in 5 countries; facilitated Data Governance Workshop resulting in approved Data Dictionary with 23 standardised group-level metrics.
- Documented AS-IS/TO-BE HR processes for SAP SuccessFactors implementation at Primus Pharma Group; collected and incorporated 34 feedback items from 20 pilot managers.
- Analysed 6 months of VitaRetail contact centre logs (1,200 contacts/day), identified top 30 customer intents, and designed conversational scripts for Copilot Studio agent.
- Managed 300 test scenarios in SAP Cloud ALM for Centrorom S/4HANA conversion; coordinated UAT cycles with 20 key users across all SAP modules.
- Facilitated 20+ requirements workshops with business stakeholders; created process diagrams, user stories, and acceptance criteria for 4 BearingPoint projects.
- Supported Power Platform project for MedService Group: process mapping of 15 administrative processes across 14 clinics, user story backlog management, and sprint demo facilitation.

Capgemini Romania *Bucharest, Romania - 2017 - 2020*

Junior Business Analyst

- Supported requirements gathering and documentation for a retail banking digitalization project (mobile banking, online onboarding).
- Created wireframes and user stories in JIRA for mobile banking application used by 200,000+ customers.
- Coordinated UAT for a core banking system upgrade: test plan preparation, defect triage, and sign-off facilitation.
- Maintained functional documentation and meeting minutes in Confluence; managed defect backlog with 180+ items.

EDUCATION

B.Sc. in Economic Informatics (double major: Economics & Computer Science) - Academy of Economic Studies (ASE), Bucharest - 2017

CERTIFICATIONS

- Entry Certificate in Business Analysis (ECBA - IIBA)
- Microsoft Power Platform Fundamentals (PL-900)
- SAP Certified Associate - SAP Activate Project Manager (foundational)
