PROFESSIONAL SUMMARY

Senior Business Analyst and AI Lead Consultant with 11+ years of experience bridging business and technology in consulting, ERP, and AI agent projects. Deep expertise in conversational AI design (Microsoft Copilot Studio), requirements engineering, and process analysis (BPMN, UML). Led the design and delivery of AI customer service agents achieving 61% deflection rates and multiple Power Platform solutions adopted by hundreds of end users. Certified Business Analysis Professional (CBAP).

WORK EXPERIENCE

BearingPoint *Bucharest, Romania - 2019 - Present*

Senior Business Analyst & AI Lead Consultant

- Led conversational design for VitaRetail AI customer service agent (Copilot Studio): analysed 6 months of contact centre logs, identified 30 intents, designed conversation trees and entity extraction; agent achieved 61% autonomous deflection rate.
- Architected and delivered multi-agent Copilot Studio solutions including Skills Matcher Agent (querying HR systems via REST API) and HR Agent with routing logic and multi-turn context retention.
- Conducted 22 shadowing sessions and process analysis for MedService Power Platform project; identified 15 processes and redesigned physician workflow reducing mandatory data entry from 12 to 4 fields.
- Facilitated Fit-to-Standard workshops (FI, CO, SD, MM) for Centrorom S/4HANA conversion; documented 300 test scenarios in SAP Cloud ALM and managed UAT cycles.
- Designed EuroAgro Data Dictionary with 23 standardised group-level metrics, resolving cross-country reporting discrepancies.
- Defined intake and requirements processes for BearingPoint Romania AI practice, including prompt engineering standards and instruction design guidelines.

IBM Romania *Bucharest, Romania - 2015 - 2019*

Business Analyst

- Gathered and documented functional requirements for a core banking system upgrade affecting 800,000 customer accounts.
- Created BPMN 2.0 process flows and functional specification documents used by 12 development teams.
- Managed change request pipeline and maintained traceability matrix linking 400+ requirements to test cases.
- Facilitated Agile ceremonies (sprint planning, backlog grooming, retrospectives) for 3 parallel delivery teams.

Deloitte Romania *Bucharest, Romania - 2012 - 2015*

Junior Consultant

- Supported business process analysis and AS-IS/TO-BE documentation for ERP implementation projects in retail and manufacturing.
- Created process diagrams in Visio (BPMN, swimlane) for client workshops and sign-off documentation.
- Assisted in data quality assessments and data migration planning for SAP ECC projects.
- Prepared and delivered client-facing status presentations for senior stakeholders.
